

# EPUAP VIRTUAL MEETING 2020

2020 - The most challenging of times: Focusing on contemporary issues in pressure ulcer prevention and management

## PROGRAMME OVERVIEW

Time zone CET	Thursday   24 September 2020		
	Track A	Track B	Track C
09:00 - 09:15	<b>Opening by Dimitri Beekman</b>		
09:15 - 10:30	<b>Session 1A: Medical device related pressure injuries;</b> <i>Chair: Peter Worsley</i>	<b>Session 1B: Prophylactic dressings;</b> <i>Chair: Jane Nixon</i>	
09:15 - 09:35	Prevention and management of device related pressure ulcers: Reflecting on a decade of improvement and challenges to be addressed; <i>Janet Cuddigan, United States</i>	RCT silicone dressings for sacral and heel pressure ulcer prevention in 475 high risk intensive care patients; <i>Elisabeth Hahnel, Germany</i>	
09:35 - 09:55	Evaluating performance of medical devices in minimising risk of soft tissue damage; <i>Dan Bader, United Kingdom</i>	Silicone adhesive multilayer foam dressings as adjuvant prophylactic therapy to prevent hospital-acquired pressure ulcers: a nationwide multicentre randomised open label parallel group medical device trial; <i>Dimitri Beekman, Belgium</i>	
09:55 - 10:15	Clinical perspectives on preventing device related pressure ulcers and the new International Consensus; <i>Paulo Alves, Portugal</i>	Systematic review prophylactic dressings for heel pressure ulcers; <i>Clare Greenwood, United Kingdom</i>	
10:15 - 10:30	Q&A	Q&A	
10:30 - 10:45	<b>Short break</b>		
10:45 - 12:00	<b>Session 2A: PPE and pressure injuries;</b> <i>Chair: Carina Baath</i>	<b>Session 2B: Prone positioning - patient perspective and staff perspective;</b> <i>Chair: Maarit Ahtiala</i>	
10:45 - 11:05	The problem of facial injury using PPE in the general care setting; <i>Steven Smet, Belgium</i>	Prone positioning ARDS patients. Where are we and where do we go from there?; <i>Claude Guérin, France</i>	
11:05 - 11:25	The challenges of using PPE in the nursing home sector; <i>Paulo Alves, Portugal</i>	Pressure injury prevention for critically ill COVID-19 patients in a prone position; <i>Michelle Barakat-Johnson, Australia</i>	
11:25 - 11:45	Providing a solution for healthcare staff using PPE - The Facial Pressure Ulcer Prevention Programme; <i>Natalie McEvoy, Ireland</i>	Challenges faced with morbidity obese patients during COVID-19; <i>Chenel Trevellini, United States</i>	
11:45 - 12:00	Q&A	Q&A	
12:00 - 12:45	<b>Lunch break</b>		<b>Industry session, Mölnlycke (12:00 - 12:45)</b>
12:45 - 14:00	<b>Session 3A: Pressure ulcer aetiology;</b> <i>Chair: Amit Gefen</i>	<b>Session 3B: Free Paper Session;</b> <i>Chair: Dimitri Beekman</i>	
12:45 - 13:05	Pressure ulcer aetiology viewed through the prism of COVID; <i>Amit Gefen, Israel</i>	Testing Sorptivity and Durability of Wound Dressings in a Simulated System; <i>Adi Lustig, Israel</i>	
13:05 - 13:25	Translating aetiological knowledge to support surface science; <i>David Brienza, United States</i>	An integrated modelling framework for optimizing NPWT; <i>Aleksei Orlov, Israel</i>	
13:25 - 13:45	Frequently moving patients may be just as at-risk as are immobile patients; <i>Aglecia Budri, Ireland</i>	Morbidly obese patient - is it a challenge for an intensive care multidisciplinary team? <i>Vanda Tomášková, Czech Republic</i>	
13:45 - 14:00	Q&A	Prevention of pressure ulcers among individuals cared for in the prone position: lessons for the COVID-19 emergency; <i>Pinar Avsar, Ireland</i>	
14:00 - 14:15	<b>Short break</b>		
14:15 - 15:30	<b>Session 4A: Guidelines session;</b> <i>Chair: Zena Moore</i>	<b>Session 4B: Contemporary issues for pressure ulcer prevention &amp; management among children &amp; young adults;</b> <i>Chair: Guido Ciprandi</i>	
14:15 - 14:35	The International Prevention and Treatment of Pressure Ulcers/ Injuries Clinical Practice guideline: an update; <i>Jan Kottner, Germany</i>	Children show increase in burn and home-related injuries over COVID-19 lockdown; <i>Serena Crucianelli, Italy</i>	
14:35 - 14:55	The patient perspective: The consumer survey; <i>Emily Haesler, Australia</i>	Fast regenerative properties of acellular fish skin grafts in wounded children of the pandemic: An additional helping; <i>Guido Ciprandi, Italy</i>	
14:55 - 15:15	Guideline methodology: How to make the best out of theory and research for clinical practice in pressure ulcer prevention and management; <i>Katrin Balzer, Germany</i>	Characteristic of IAD in children with oncohematological disease during the Covid-19 pandemic period; <i>Marjola Gjergji, Italy</i>	
15:15 - 15:30	Q&A	Q&A	
15:30 - 15:45	<b>Short break</b>		
15:45 - 17:00	<b>Session 5A: Surgical management of pressure ulcers;</b> <i>Chair: Serena Crucianelli</i>	<b>Session 5B: Student Free Paper Session;</b> <i>Chair: Susan Coleman</i>	<b>Session 5C: Teasers presentations;</b> <i>Chair: Carina Baath</i>
15:45 - 16:05	Surgical repair of pressure ulcers; <i>Guido Ciprandi, Italy</i>	A multi-layered prophylactic dressing substantially alleviates facial tissue loads in prone-position surgeries; <i>Lea Peko, Israel</i>	
16:05 - 16:25	Post-operative management; <i>Paulo Alves, Portugal</i>	Feasibility of using 2D ultrasound data for building a personalized numerical model of the sacral region for the evaluation of the subject-specific risk of sacral pressure; <i>Ekaterina Mukhina, France</i>	
16:25 - 16:45	Rehabilitation and preparation for home; <i>Jitka Klugarova, Czech Republic</i>	The contribution of artificial intelligence to the diagnosis and management of chronic and acute wounds: A scoping review; <i>Dafna Schwartz, Israel</i>	
16:45 - 17:00	Q&A	The problematics of wounds related to nursing care in intensive care units - the questionnaire survey, <i>Natália Antalová, Czech Republic</i>	
17:00 - 17:05	<b>Closing by Dimitri Beekman</b>
